Ms. Caroline Shah

BY EMAIL ONLY

Dear Ms. Shah,

RE: London Plan and stag beetles

Thank you for your email dated 10th September in which you provide additional evidence relating to the impact of the London Plan on stag beetles within Richmond Park, Wimbledon Common and Epping Forest.

We take our consultation responsibilities very seriously and are always interested to receive updated information and evidence which may influence our advice and decisions.

We have shared your documents with our Senior Invertebrate Specialist but the additional information does not change their expert judgement on stag beetles and recreational disturbance in this instance.

We appreciate you taking the time to contact us about this issue and are sorry that in this instance we are unable to help.

Kind regards

Manager
Thames Solent Team
